

Fold each printed sheet in half lengthwise. The left side of the document will list the term and the right side will list the definition. Tape or staple the open edges of your flashcards. Cut out your flashcards on the solid lines indicated and fold them on the dotted lines.

Module 6
Section B: Risk Analysis and Tools

Term
Failure mode and effect analysis (FMEA)

APIC M-Quality Learning System © 2026

A systematic, proactive method for evaluating a process to identify where and how it might fail and to assess the relative impact of different failures in order to identify the parts of the process that are most in need of change.

Module 6
Section C: Selecting & Assessing Effective Interventions

Term
Business case

APIC M-Quality Learning System © 2026

A standardized (or relatively standardized) document intended to efficiently communicate what is being requested, by whom, for what reason, its investment cost, and its relative return on investment (ROI).

Module 6
Section C: Selecting & Assessing Effective Interventions

Term
Care bundle

APIC M-Quality Learning System © 2026

A small, straightforward set of evidence-based practices that, when performed collectively and reliably, have been proven to improve patient outcomes. (IHI).

Module 6
Section C: Selecting & Assessing Effective Interventions

Term
Off-label use

APIC M-Quality Learning System © 2026

The application of a product for a purpose that is not included in the approved device labeling.

Module 6
Section C: Selecting & Assessing Effective Interventions

Term
Product evaluation

APIC M-Quality Learning System © 2026

A process of appraisal that considers the value and significance of quality, cost, safety, and practitioner choice for product selection. (APIC)

Module 6
Section C: Selecting & Assessing Effective Interventions

Term
Workflow

APIC M-Quality Learning System © 2026

The sequence of steps involved in moving from the beginning to the end of a working process.
