<p><b>Term</b> Blockchain</p>
<p>APICS CLTD Learning System © 2025</p>

A continuously growing list of records, called blocks, which are linked and secured using cryptography. Each block typically contains a cryptographic hash of the previous block, a timestamp, and transaction data. The data in any given block cannot be altered retroactively without the alteration of all subsequent blocks, inherently making it resistant to modification.

<p><b>Module 8</b> <i>Section C: Incorporate Risk Management Principles</i></p>
<p><b>Term</b> Business continuity management system (BCMS)</p>
<p>APICS CLTD Learning System © 2025</p>

Part of the overall management system that establishes, implements, operates, monitors, reviews, maintains, and improves an organization's capability of delivering products or services at acceptable predefined levels following a disruptive incident. It is based upon identifying potential threats to an organization and the impact to business operations from those threats. The system provides a framework for building organizational resilience with the capability of an effective response that safeguards the interests of its key stakeholders, reputation, brand, and value-creating activities.

<p><b>Module 8</b> <i>Section C: Incorporate Risk Management Principles</i></p>
<p><b>Term</b> Business continuity planning</p>
<p>APICS CLTD Learning System © 2025</p>

Plans to ensure that an organization is capable of continuing to deliver products or services at acceptable predefined levels following a disruptive incident. The plans are developed by identifying potential threats to an organization and the impacts to business operations those threats might cause. These plans provide a framework for building organizational resilience with the capability of an effective response to safeguard the interests of key stakeholders, reputation, brand, and value-creating activities.

<p><b>Module 8</b> <i>Section C: Incorporate Risk Management Principles</i></p>
<p><b>Term</b> Configuration management</p>
<p>APICS CLTD Learning System © 2025</p>

Formal procedures to identify and document the physical characteristics of a product or project, control changes, and support an audit to verify conformance.

*Section C: Incorporate Risk Management Principles*

**Term**  
ISO 22301

APICS CLTD Learning System

© 2025

An international standard that specifies requirements for setting up and managing an effective business continuity management system.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**  
ISO 31000

APICS CLTD Learning System

© 2025

A standard adopted by the International Organization for Standardization that outlines principles and a set of guidelines to manage risk in any endeavor. The standard includes guidelines for understanding risk, developing a risk management policy, integrating risk management into organizational processes (including accountability and responsibility), and establishing internal and external risk communication processes. [This] is not a management system standard and is not intended or appropriate for certification purposes or regulatory or contractual use.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**  
Risk acceptance

APICS CLTD Learning System

© 2025

A decision to take no action to deal with a risk or an inability to format a plan to deal with the risk.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**  
Risk avoidance

APICS CLTD Learning System

© 2025

Changing a plan to eliminate a risk or to protect plan objectives from its impact.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**

Risk breakdown structure

APICS CLTD Learning System

© 2025

A tool that helps identify potential project risks, organized by risk categories and subcategories.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**

Risk management

APICS CLTD Learning System

© 2025

The identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events or to maximize the realization of opportunities.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**

Risk mitigation

APICS CLTD Learning System

© 2025

Reducing exposure to risk in terms of either its likelihood or its impact.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**

Smart contracts

APICS CLTD Learning System

© 2025

A self-executing contract with the terms of an agreement between a buyer and a seller written into lines of blockchain code. These contracts use technology to automatically ensure that contract terms are met. If a new action, transaction, or other information is added to the blockchain—or decentralized digital ledger of the agreement—that does not match the terms of the agreement already included in the blockchain, the information will be rejected, thus ensuring that all parties adhere to the contract.

**Module 8**

*Section C: Incorporate Risk Management Principles*

**Term**

Supply chain risk

APICS CLTD Learning System

© 2025

The variety of possible events and their outcomes that could have a negative effect on the flow of goods, services, funds, or information resulting in some level of quantitative or qualitative loss for the supply chain.
