Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Current ratio

APICS CTSC Learning System

© 2025

Current assets divided by current liabilities.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Discounted cash flow

APICS CTSC Learning System

© 2025

A method of investment analysis in which future cash flows are converted or discounted to their value at the present time. The net present value of an item is estimated to be the sum of all discounted future cash flows.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Economic value added (EVA)

APICS CTSC Learning System

© 2025

In managerial accounting, the net operating profit earned above the cost of capital for a profit center.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Net working capital

APICS CTSC Learning System

© 2025

The current assets of a firm minus its current liabilities.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Payback period

APICS CTSC Learning System

© 2025

The period of time required for the stream of cash flows resulting from a project to equal the project's initial investment.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Residual income

APICS CTSC Learning System

© 2025

The net operating income that an investment center earns above the minimum required return on its operating assets.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Return on investment (ROI)

APICS CTSC Learning System

© 2025

A relative measure of financial performance that provides a means for comparing various investments by calculating the profits returned during a specified time period.

Module 2

Section F: Develop and Iterate Preliminary Transformation Business Cases

Term
Time value of money

APICS CTSC Learning System

© 2025

The cumulative effect of elapsed time on the money value of an event, based on the earning power of equivalent invested funds.
